Subject: State Level Severity Fund Project Numbers

State Directors were delegated the authority to expend up to \$100,000 for state "short term" severity needs in 1997. The Office of Fire and Aviation agreed to provide project numbers to use in implementing these state level severity funding activities each year.

State Directors have the responsibility and accountability to ensure these funds are only used to meet the objectives of severity and that amounts are not exceeded. Each State Office is responsible for establishing a process to document needs, what is approved, and how the funds are used. (Attached is a sample State Level Severity Fund Form.) All of this information should be maintained in a State Office severity file.

The following are the project numbers for your state for FY2002:
